## C (Continuation). DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	1338371 A & US 2004/0002199 A1 & CN 1473087 A  JP 2004-165436 A (ROHM CO LTD) 2004.06.10, the whole document (Family None)	1,3,2,4,5-9,10-13, 14-19

**INTERNATIONALSEARCHREPORT**International application No.  
PCT/JP2005/019456**Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)**

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1.  Claims Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
  
2.  Claims Nos.:  
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
  
3.  Claims Nos.:  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

**Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)**

This International Searching Authority found multiple inventions in this international application, as follows:  
see extra sheet

1.  As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2.  As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of additional fees.
3.  As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
  
4.  No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

**Remark on Protest**

- The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.
- The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation.
- No protest accompanied the payment of additional search fees.

The separate inventions are not so linked as to form a single general inventive concept for the following reasons:

The same or corresponding matters between the inventions of claims Nos. 1-19 are "irradiating an object with the laser beam which generates a multiphoton absorption"

However, after taking the prior art into consideration, it became apparent that the matters were mentioned in a document US 2004/0087118 A1 (RENESAS TECHNOLOGY CORP) 2004.05.06, the whole document , JP 2001-338894 A (MATSUSHITA DENKI SANGYO KK) 2001.12.07, Claim 1,Claim 4,[0012],[0026],[0030],[0032] , WO 2004/050291 A1(HAMAMATSU PHOTONICS KK) 2004.06.17, the whole document , WO 2002/022301 A1 (HAMAMATSU PHOTONICS KK) 2002.03.31, the whole document , JP 2004-165436 A (ROHM CO LTD) 2004.06.10, the whole document. Therefore, the matters makes no contribution over the prior art.

Consequently, there is no same or corresponding "special technical features" which is the expression in the PCT Rule 13.2. Therefore, there is no technical relationship between the inventions of claims Nos. [ 1,3],[ 2,4],[ 5-9],[ 10-13],and [ 14-19].
